We should also mention that the CASAC needs to be sure to answer the EPA's charge questions (at a minimum), but are also free to discuss issues not mentioned in the charge questions (such as what the issues you brought up).

Good thought. I have added a few lines after the questions to address this.

Thanks, Aaron!

Can you just add some language to the chair's memo?

Aaron, the following methodological issues for Chapter 5-11 seem to me to be of fundamental importance for drawing sound conclusions.

Aaron, can you please add me as an additional worker on Chapters 5-11 of the PM ISA and on Chapter 5 of the O3 IRP? Otherwise, these look good to go.

Thanks!

Tony,

Attached are the draft chair memos that we would send out to the CASAC members along with the review materials and charge questions for the Ozone IRP teleconference and the PM ISA meeting. Please send me any comments/edits that you may have.

We hope to have the ethics review completed shortly.
